04 February 1993

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Fairfax County Police

1. On Tuesday, 2 February 1993 at 1300 hrs,

[redacted] met with Fairfax County Police at their Fairfax Headquarters. In attendance from Fairfax County Police were Captain David Franklin, Chief Major Crimes Unit; Detective Lieutenant Jerry Burns, Detective Fred Fife, and Detective Brad Garrett. The meeting was arranged through Office of Security officials [redacted]

2. [redacted]

[redacted] Captain Franklin asked his detectives to talk us through the shooting incident. His legal counsel advised he could not release any witness statements (Agency or civilian) to us. But, was more than happy to have his detectives re-create the event orally.

3. At approximately 0750 hrs on 25 January 1993, a lone shooter stopped his vehicle in the right lane of the two left turning lanes on Route 123, outside CIA Headquarters. The shooter's vehicle was the fourth car back from the light in the right lane of the turning lanes. The shooter exited his car from the driver's seat and fired one round through the rear glass striking Frank Darling in the right shoulder. Mr. Darling's vehicle was three cars back in the left turning lane. The shooter turned to his right and fired two shots into the vehicle of Dr. Lansing Bennett, killing the occupant. The shooter moved forward and fired one shot to his left through the rear window of [redacted] vehicle striking [redacted] in the neck. The shooter moved forward turning to the right and fired one shot through rear window striking Nicholas Starr in the shoulder.

[redacted]
APPROVED FOR RELEASE
DATE: NOV 2002
[redacted]

SUBJECT: Meeting with Fairfax County Police

Mr. Starr's car is the first in line of the right lane. After being shot, Mr. Starr pulled forward and while moving is shot a second time in the shoulder. [] is the first car in the left turn lane. [] begins to drive off and his vehicle is fired at twice by the shooter, the first round goes through the vehicle's trunk and the second round through the rear window. One of these two rounds strikes [] in the rib cage. The shooter turns, walks back down the line of cars, and at the right rear of [] car, fires three rounds into the Darling vehicle striking Mr. Darling in the right calf, right knee, and the final fatal shot to the head. The shooter enters his car and pulls out onto Route 123.

4. [] and Mr. Starr keep their vehicles moving and proceed to the CIA Visitor Control Center (VCC). Mrs. Darling and [] whose car was next to the shooter's vehicle, exit their vehicles and run to the VCC.

5. The incident was over in approximately 30-45 seconds and in the chaos that followed no known witnesses got a vehicle description or tag number.

6. Eleven rounds were fired and one round was extracted by the shooter. The Police believe the unfired extracted round was an IMI Israeli round, with A 71 over 92 head stamp, the other spent rounds were Chinese. All the rounds were 762 x 39 fired from an AKA semi-automatic assault rifle.

7. Collectively, the witnesses described the shooter as a white male with a dark complexion, 20-30 years of age, 5'8" - 5'10" in height, a 145-165 lbs and medium build. The shooter fired the weapon from the shoulder in a slight crouch position.

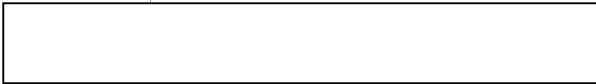

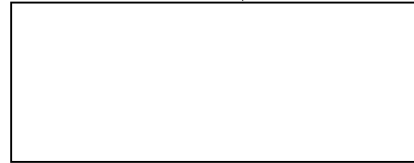

8. Police feel the "spree" shooter had done some "scouting" of the location and some "timing" of the traffic light in order to "target" CIA employees.

9. Police released a helicopter overhead photo of the crime scene and asked that [] not interview any witnesses at this time for legal purposes. The request for Agency witness statements would be looked into with the police legal counsel.

Remains

I was dispatched to a report of people shot at the CIA at 930 Riley Madison Rd. Upon my arrival at the scene I located the scene to be in the left hand turn lanes on I-6 RT. 123. These lanes turn into the main gate of the CIA. I observed several cars in these lanes and about 4 or 5 uniformed CIA police standing in the median strip. I then observed 5 veh's that appeared to be involved in this case. 4 of these veh's were parked in the far left turn lane and I was parked in the right left hand turn lane. See Diagram. I located gunshot victims in veh's #1, 2 and 3. Victim in veh #1 was still alive and conscious but did not speak. Victims in veh's #2 + 3 appeared to be DCA. I then located the only witness on the scene (listed) in veh #6. I took that witness to my cruiser to interview her. I obtained a description of the suspect and his veh and broadcast that info over the radio. 3108 C/O J.T. Hardin arrived on the scene right after me and help secure the scene. I then interviewed the witness and was advised of the following;

I remained with the witness until CIS responded. I then briefed the Chief on the information I had and a CID Investigator transferred my witness to STA 3 for further questioning. I remained on the scene as perimeter security until the road was finally opened. 2 other veh's that were hit at were stopped in front of veh's #1 and 3. But after the drivers were hit, they drove to the Main Gate of CIA for assistance. The drivers of veh's 4 and 5 were made it to the main gate. All of these victims + witnesses were kept down there with other officers responsible for that location. I have not in contact with those who were there.
